

FoodALYT

FoodALYT TS 10 Manual Titration Station

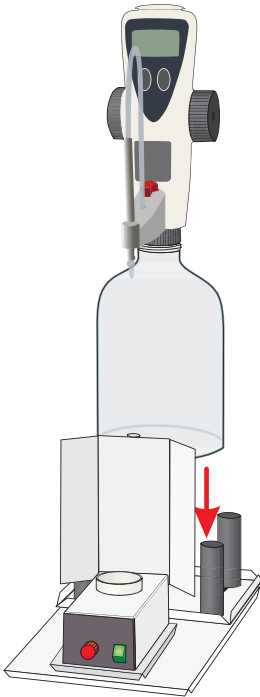

The Manual Titration Station FoodALYT TS 10 ideally supplements the product range of FoodALYT SBS, FoodALYT IR and FoodALYT D within the nitrogen determination acc. to Kjeldahl.

With FoodALYT we provide experienced and practicable systems - made in Germany - with a balanced cost-benefit ratio. All products are **CE** conform and certified.

- Neutral background screen, designed with angled wings, which also protect against lateral glare, ensures precise determination of colour change at the end of titration.
- Carrying out titration under similar visual conditions achieves better accuracy and reproducibility of results.
- Precise positioning of Erlenmeyer flasks in the holder on the top of the magnetic stirrer.

FoodALYT TS 10

Manual Titration Station

FoodALYT TS 10

Field of Application:

FoodALYT TS 10: • Nitrogen determination acc. to Kjeldahl.

Technical Data:

Mains supply: 230 V, 50 Hz

Weight (incl. glassware): approx. 4 kg

Dimensions (W x D x H): approx. 33 x 20 x 60 cm

Items Supplied:

The FoodALYT TS 10 consists of a burette with digital display and magnetic stirrer with accurately fitting holder for Erlenmeyer flasks.

Order Information:
