

Gradient Controller GE-11

Product Name	Gradient Controller		
Part Number	GE-11		
Max Files	99		
Input Signals	PUMP START	GRADIENT START	
Output Signals	Valve Change ERROR		
Compatible with FLOM pumps	HI-12-33	HP-12-33	AI series
	KP series	SP series	CP-14
Dimensions(mm)	70(H) x 140(W) x 200(D) (excluding protuberances)		
Weight	approx. 0.5 kg		
Power supply	AC 100V		
Order Code	SGC-B201		

* The specifications and product design may change without prior notice.
 * For custom specifications, contact FLOM.

Gradient Controllers Gradient Controller GE-11

An easy to program controller for gradient flow applications using 2 or more pumps. Connects to all FLOM pumps.

Features

- easy to operate gradient control
- space-saving compact design
- connects with all FLOM pumps
- timer function allows automatic valve switching
- comes with RS-232C cabling for connection to FLOM pumps
- 2 standard modes: Linear/Step

Example of Configuration Using the Gradient Controller

Sample Gradient Program

- Step Gradient
- Linear Gradient
- Step N
