AA 120 NEW  
AA 600 NEW

Cabinet with aspirator and filter, TÜV and CE certified  
In compliance with EN 61010-1, EN 14727, TEST PPP  
52125A

AA 120 NEW

AA 600 NEW

**AA 120 NEW**  
-External dimensions (LxDxH): 1200x500x1998 mm  
-Internal dimensions (LxDxH): 1120x450x1500 mm  
-Weight: 155 kg  
-Storage capacity: ~766 lt  
-Shelf loading: 100 kg

**AA 600 NEW**  
-External dimensions (LxDxH): 600x500x1998 mm  
-Internal dimensions (LxDxH): 530x450x1500 mm  
-Weight: 95 kg  
-Storage capacity: ~357 lt  
-Shelf loading: 100 kg

- Completely produced in pickled and electrogalvanized steel, 10/10 mm thickness, painted with epoxide acid-proof dusts. Thickness of painting from a minimum of 60µm (micron) to a maximum of 250µm (micron) as per UNI EN ISO 9001 procedure.
- **Monolithic construction, resistant to corrosive products.**
- **Certified palletized base:** for easier transportation of the cabinet.
- **3 tray-shaped shelves adjustable in height by racks, with bottom basin,** made of electrogalvanized steel painted with epoxide acid-proof dusts.
- Doors opening up to 110°.
- Acid-proof hidden hinges.
- Security lock with key and extractable cylinder.
- **E-Flow® smart aspiration system** (standard on models AA120NEW, AAW120NEW).
- **Activated charcoal filter Carbox® with electronic device Cunctator®** for charcoal filter replacement.
- **Electroaspirator IMQ IPX4**, in compliance with EN 60335-1, EN 60335-2-80 and EN 50366 norms.
- Input voltage: Volt 220/230.
- Max absorbed power: 65W.
- ON/OFF lamp.
- "Danger" warning stickers.
- Grounding connection to discharge build-up of static electricity.
- Levelling feet for balance.
- **"Product and public liability insurance" valid for all lifelong of the cabinet.**
- Usage and maintenance manual.
- **Packaging with "Tipping over system®" device.**

# Accessories

## E-FLOW® ASPIRATION SYSTEM

for energy saving and maximum safety of the operator.

## ANTIMICROBIAL PAINT

to prevent any bacteria proliferation on the treated surfaces, through release of silver ions.

## ACTIVATED CHARCOAL FILTER

on demand treated for formaldehyde and other substances.

## KIT01

Aspirator and filter for chemicals, acids, bases storage cabinets.

## PROPYLENE BASIN

Possibility to supply the shelves with PP basin.

## ADDITIONAL SHELVES

made of acid-proof painted steel or AISI 304 STAINLESS STEEL.

## PARTITION WALL KIT

for 120 series, with shelves and racks included.

## ECOBX® PVC

Container for polluting liquids with full/empty signaling device. Customized dimensions.

## STAINLESS STEEL ECOBX®

Container for polluting liquids with full/empty signaling device. Customized dimensions.

## TOUCH CODE

Opening doors' system through fingerprint detection, with ability to record multiple users.
